

Why hide your vibe?

You've never been afraid to stand out. So why choose a hearing instrument that's all about blending in? Siemans Vibe™ fits your personality — and your ear — in a radical new way. One that lets you connect with your Wild side. Or inner Superhero. It's about as far from ordinary as it gets. And that's the whole point.

Hearing instruments help many people hear better, but no hearing instrument can solve every hearing problem nor restore normal hearing.

Vibe™

Siemens Vibe:

The first hearing instrument that fits you, inside and out.

www.usa.siemens.com/hearing

SIEMENS

No matter how you choose to face the world, Vibe lets you do it with style.

It goes where no hearing instrument has gone before.

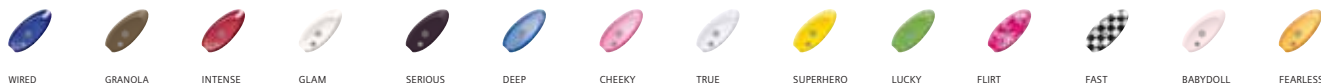

MP3? Wireless headset? Guess again. Vibe's design is so unique, it doesn't even look like a hearing instrument. It's the first one that fits securely into the crest of the ear. Your ear canal is left open, for greater comfort. There's nothing behind your ear either. So Vibe won't interfere with your eyeglasses or other devices. And it stays put, even when you're on the move. In fact, Vibe's fit is so natural, you'll forget it's there. Until you hear the difference it makes.

It fits who you are. At any given moment.

Vibe is all about keeping it fresh. With an expanding selection of interchangeable, snap-on covers, you can show the world your true colors—and change them just as fast as your mood. Whether you want to unmask your inner Flirt, rev up your Dynamo, or you're simply feeling Granola, Vibe lets you express yourself any way you choose. So show your confidence. Spice up an outfit. Shake up the status quo. But never blend in.

It's revolutionary from the inside out.

Vibe comes equipped with Siemens cutting-edge technology. But it's also extremely simple to operate. In fact, Vibe is about as user-friendly as it gets. A single push button control makes it a snap to adjust. And it's as easy to fit as it is to wear. Walk in and walk out with your Vibe in only one visit. Not only will you be able to hear more clearly, you'll look good doing it. Siemens Vibe. Just tuck it in and go.

the inside story

Exclusive SoundSmoothing™ technology recognizes and reduces annoying noises like rustling paper and clanging dishes, while preserving the sound of voices and conversations.

FeedbackBlocker™ automatically reduces feedback, so you have no embarrassing whistling.

8 channels for increased flexibility to fit your individual hearing loss requirements.

Microphone is uniquely positioned to take advantage of the way your ear naturally collects sound.

Uses small 10A battery to minimize weight and size.

WILD SHARP CLEAN DYNAMO SAFE
